

LANCASTER TRAINING SERVICES LIMITED

TYRE FITTING COURSE (Light Vehicle)

(prices correct as of 25.7.2013)

This is a 1 day course with the morning spent in the classroom learning the theory of tyre changing and wheel balancing. You will get to know about tyre sizes, load and speed ratings and will learn about tyre and balancing machines. Health & Safety matters involved when changing tyres in a workshop are also covered.

In the afternoon the course moves to the workshop where you will have the opportunity to get 'hands on' and change tyres and balance wheels. We use alloy and steel rims so that you have the opportunity to change both. How to carry out puncture repairs correctly concludes the course.

The course runs from 9.00am to 3.30pm and costs £240.00* inclusive of VAT. A Certificate of Attendance will be issued upon completion of the course. A minimum of 2 candidates are required in order for the course to run.

If you need any more help or information then please do not hesitate to contact us by telephone, email or letter. We are here to help!
