

Certificate of Professional Competence – CPC Road Haulage and Passenger Transport

These qualifications are offered on behalf of the Department for Transport. You will find it suitable if you wish to enter the profession of road haulage or passenger transport management or demonstrate your professional competence to meet the Operator Licensing requirements. The qualification includes a range of subjects related to the business of road haulage or passenger transport management.

The national and international topics are now combined into 2 examinations. The first is a 2 hour multi-choice examination with 60 questions which will need a 70% pass mark. The second is a 2 hour case study examination with between 5 and 8 questions which will require a 50% pass mark. The case study examination is likely to contain the odd question with an international flavour – eg a driver’s schedule for a journey to another EU Member State – but generally there will be no case study questioning on exclusively international topics.

Please note that with regard to Units R2/P2, the Case Study, the OCR have an ‘open book’ rule which means candidates may take any written materials of their own choosing into the examination room. This includes any books or text books and any printed or handwritten notes or materials.
