

All courses run from 0745 to 1600 and are suitable for **LGV licence holders**. All candidates **MUST** understand and comprehend the English language and participate in the course in order for the Driver CPC hours to be registered.

VULNERABLE ROAD USERS

This course is based on the Transport for London (TfL) programme and has been designed to enable transport operators to take measures to improve the safety in all road traffic environments. Candidates will gain an understanding of the changing streetscape and the urban environment, vulnerable road users and sharing the road safely, plus defensive driving techniques and actions in the event of an emergency incident.

DRIVERS' HOURS REGULATIONS

This module explores the rules and regulations relating to Drivers' Hours and Working Time Regulations.

THE PROFESSIONAL DRIVER

This module looks into common workplace and driving-related issues that affect all professional drivers.

HEALTH AND SAFETY

During this module, drivers will learn about workplace health and safety in the context of their daily work.

HAULAGE OPERATIONS: COMPLIANCE & ENFORCEMENT

This module provides drivers with an insight into a range of operator compliance issues affecting haulage operations.

HAULAGE OPERATIONS: ROAD FREIGHT COMPLIANCE

This module looks into common regulations and documentary requirements affecting domestic and international road freight transport.

LOAD SAFETY

During this module, drivers will explore safety considerations and the regulations concerning load safety in road freight haulage.

ANALOGUE AND DIGITAL TACHOGRAPHS

This module provides drivers with an introduction to analogue and digital tachograph usage as well as the regulations that govern their usage.

EMERGENCY ACTIONS

This module explores potential everyday emergency situations that the professional goods vehicle driver might encounter and ways in which the risk can be minimized.

VEHICLE SYSTEMS

This module provides an overview of the various components and systems found on the modern large goods vehicle.

SAFE AND ECONOMIC DRIVING

This module explores factors relating to LGV fuel consumption and provides drivers with an insight into safe and fuel efficient driving techniques.

ON THE ROAD

Throughout this module, drivers will look into common safety and regulatory issues related to driving a large goods vehicle on the public highway.
